 **JOSEF KIHMBERG**

Engineered Fastening Solutions for the packaging industry

Josef Kihlberg, AB grew out of humble beginnings as a hardware store in Sweden more than 160 years ago. This world-leader in the industrial stapling and transportation packaging industry is now part of the ITW Industrial Fastening group of companies.

With over 60 years of stapling experience, the Josef Kihlberg range of products includes pneumatic top staplers, bottom staplers and pliers as well as similar manually-operated tools. Products are also available for specialized packaging such as trays, lids and flat sheet materials for a wide range of industrial stapling. Ergonomically designed for maximum efficiency with minimum strain, these first-rate tools yield safer and more productive employees, while accurate staple placement saves time and materials. In fact, the industry's requirement for secure closing at low cost for both consumer and transport packaging is the basis for the Josef Kihlberg packaging range. These lightweight tools are tireless and flexible enough to work in high speed packaging environments. The results are clean packaging surfaces and a secure package for transport in all weather conditions.

c.561PN Top Stapler

#125103

- At 4 lbs., it's among the lightest in the industry.
- Adjustable stapling depth from 5/8" to 3/4" allows you to tackle any job with the turn of a knob.
- All mechanical parts are constructed of metal for precision and speed.
- Smooth, fibre-reinforced plastic housing provides a durable, yet comfortable tool.
- Huge 150 staple capacity allows for more uninterrupted usage.
- Utilizes these high-quality JK fasteners for perfect stapling every time:
 - 400145 - JK561-15K 5/8" Staples
 - 400153 - JK561-18K 3/4" Staples

JK20T779 Pneumatic Plier Stapler

#126094

- All metal construction provides the user with a heavy-duty tool with years of quality and dependability.
- Pneumatically driven stapling tongue both compresses and staples the material for precision, an excellent hold, and can be used for splicing different materials.
- With a built-in silencer and weight just over 3 lbs., this well-balanced tool will allow for effortless use time, and time again.
- The large 84 staple capacity provides for less down time refilling the tool.
- Utilizes these high-quality JK fasteners for perfect stapling every time:
 - 400368 - JK779-08 5/16" Staples
 - 400370 - JK779-10 3/8" Staples
 - 400372 - JK779-12 1/2" Staples
 - 400375 - JK779-14 9/16" Staples
 - 400377 - JK779-16 5/8" Staples

B561 Bottom Stapler

#120362

- Designed with a steel tubing frame and hardened steel, this robust tool can be depended on for continuous, quality stapling for years to come.
- With a smooth pedal-activated mechanism and huge 300 staple capacity, this stapler offers its user efficiency and comfort with any size job.
- Utilizes these high-quality JK fasteners for perfect stapling every time:
 - 400145 - JK561-15K 5/8" Staples
 - 400153 - JK561-18K 3/4" Staples
 - 400158 - JK561-22K 7/8" Staples

ITW INDUSTRIAL FASTENING, Inc., a subsidiary of Illinois Tool Works (ITW), is the proud owner and manufacturer of the DUO-FAST®, PASLODE® and JOSEF KIHMBERG brands. With a proven history in cutting-edge fastener technology for the cabinetry, millwork, truss, flooring/carpeting and furniture markets, ITW is the leader in engineered solutions for wood fastening.
